- Analyze all of the information gathered
- Report the facts to you – including video and photos if applicable
- Recommend a course of action

## KNOWLEDGE

Get the information and knowledge you need to:

- 1. Avoid Problem Employees** – 41% of applicants lie on their resumes. Find out before you hire whether a potential employee lacks responsibility, integrity, or good work habits.
- 2. Reduce Liability** – Workplace safety is your responsibility. Avoid hiring applicants who have a propensity for violent or illegal behavior. 18% of all reported violent crimes occur at the work place.
- 3. Save Money** – Employee turnover and fraud cost businesses 600 billion each year. Civil litigation cases often hinge on the quality of the evidence presented. You can't afford not to do a thorough investigation.
- 4. Learn The Truth** – Is the applicant being truthful? Can the nanny be entrusted with your children's care? Did your employee actually hurt himself on the job? Who was at fault in the accident? Get the facts.
- 5. Enjoy Peace of Mind** – Your decisions will be based on the results of an expert and thorough investigation.
